# **LC** Series Low TCR Thick Film Chip Resistors

Version. B

### **FEATURE**

- Tiny and light with thick film technology.
- Low temperature coefficient narrow to 50 PPM/°C
- RoHS complaint.
- High reliability and stability.
- Compatible with Reflow and Wave soldering type
- Applications:
  - Cell phone .
  - Computer, notebook, workstation, tablet, and peripherals .
  - Instruments and meters
  - etc.

## MANUFACTURER PART NO.

For example: LC1206J100KT5G00-LC1206 ±5% 100KΩ T/R-5000 50PPM/°C

| LC0805 | 1/8W        | 150V             | 300V             | 1Ω-1ΜΩ      | 1Ω-1ΜΩ   | 1Ω-1ΜΩ   |  |  |
| LC1206 | 1/4W        | 200V             | 400V             | 1Ω-1ΜΩ      | 1Ω-1ΜΩ   | 1Ω-1ΜΩ   |  |  |

Note: ① MWV=Max. Working Voltage. 2 MOV=Max. Overload Voltage.

## POWER DERATING CURVE

Note: Operating temperature range is from -55℃ to +155℃

#### LC Series Low TCR Thick Film Chip Resistors Version. B RATED VOLTAGE

Resistors should have a Rated Voltage DC or AC corresponding to Rated Power which can be calculated by formula as below.

The Rated Voltage of certain resistance value should be the calculated result or Max. Working Voltage of product series whichever less.

Formula:

$$E = \sqrt{P \times R}$$

E=Rated voltage(V) P=Rated power(W) R=Nominal resistance(Ω)

Check the appearance of the welded end<br>of the part under the stress conditionSize 02010402,060308051206,12102010, 2512Test force 2N5N9N25N45NReference: IEC 60115-1 9.7   | Without obvious injury   |  |

## LC Series Low TCR Thick Film Chip Resistors Version. B

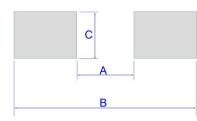

#### SOLDERING TEMPERATURE

## SOLDERING PAD

Resistance value would be lower than nominal value because of joint with soldering material, so designing circuit should adjust the pad size

|        |     |     | Unit: mm |
|--------|-----|-----|----------|
| Туре   | А   | В   | С        |
| LC0402 | 0.5 | 1.5 | 0.6      |
| LC0603 | 0.8 | 2.1 | 0.9      |
| LC0805 | 1.2 | 3.0 | 1.3      |
| LC1206 | 2.2 | 4.2 | 1.6      |

## WORKING ENVIRONMENT

If user intends to use products in special environments or states (including but not limited to the following), it is necessary to approve special characteristics and reliability for the following or other application environments.

- A. High temperature, high moisture.
- B. Near the sea, or corrosive gas, such as  $Cl_2$ ,  $H_2S$ ,  $NH_3$ ,  $SO_2$  and  $NO_2$ , etc.
- C. Unverified liquids, such as water, oil, chemical or organic solvent.
- D. Unverified resin or paint to cover products.
- E. Products should be washed with water soluble cleaner even if non cleaning flux.

## **STORAGE / CARRY CONDITIONS**

- A. Temperature: 25±5℃
- B. Humidity: 60±15%RH
- C. Storage life: 2 years. FIFO.
- D. Please hold box correct orientation when storing and carrying. It is strictly prohibited to fall or squeeze the box, otherwise the product electrode or body may be damaged.

#### LC Series Low TCR Thick Film Chip Resistors Version. B LEGAL DISCLAIMER

GiantOhm and its distributors or agents (hereinafter referred to as GiantOhm) shall not bear any responsibility for any error, inaccuracy or incompleteness contained in any product related information (including but not limited to product specifications, data, pictures, and charts). GiantOhm may change, revise, or improve product related information at any time without prior notice.

GiantOhm makes no commitment, guarantee for the suitability of its products for special purposes or the continuous production of any of its products. To the maximum extent permitted by law, GiantOhm does not assume any of the following responsibilities:

- A. All liabilities arising from the application or use of any GiantOhm's products.
- B. All liabilities, including but not limited to the loss of profits or direct damage, indirect damage, special damage, punitive damage, derivative damage, or incidental damage caused by or related to GiantOhm's products.
- C. All implied warranties, including fitness for a particular purpose, non-infringement, and merchantability.

GiantOhm defines this product as a general consumer electronic purpose, which is not applicable to any medical lifesaving or life-sustaining equipment, nor to any application that may cause casualties in case of failure of GiantOhm's products.

All technical suggestions on product application provided by GiantOhm are provided free of charge. GiantOhm assumes no obligation and responsibility for adopting such technical suggestions and available results, and all risks of adopting such suggestions shall be borne by the buyer. All risks and responsibilities arising from the buyer's use of GiantOhm's products in combination with other materials or raw materials, or in any combination in its manufacturing process, shall be borne by the buyer, regardless of any oral or written technical instructions, suggestions or other requirements given by GiantOhm for the use of the products.

The information provided above is only to explain the product specifications. If the product is not changed, GiantOhm has all the rights to modify the above contents without prior notice, and the product change will be notified to the customer by ECN.
